

EarthCruiser NEWS

EarthCruiser's USA facility will be operational January 2012, fitting Australian made EXP camper bodies to North American FUSO chassis.

We also have customer's from LHD countries sending their FUSO 4x4 to our workshop in Australia.

Limited stock of the new double slide camper is also arriving. If you looking for a sensational deal on a 4x2 or 4x4 camper get in touch, it will be worth your while.

We would be doing you a disservice if we did not mention we have almost sold out of our (and we believe only) stock of the 4.9litre 4x4 Canter.

The timing might not be right for you, that's OK give us a ring we might be able to figure something out!

The very best part of this job is when we hand over the keys. Well done Georgie (on the left) happy travels and welcome to the EarthCruiser Family!

Breaking NEWS

Last but not least

The EarthCruiser's Owners Club is up and running, planning trips both in Australia and internationally.

We will be at the Adelaide 4X4 show end of the month, if you're in town please drop in to say G` day!

Happy Travels.
