

It is with great pleasure we welcome Chris to the EarthCruiser team in Australia.

Chris Hopkinson joins EarthCruiser as our new Factory Sales Representative. Chris has spent over 40 years working in the transport and trucking industry in various roles from diesel mechanic, workshop foreman, and fleet manager, to sales and owner operator.

Chris' background as a diesel mechanic has given him an intimate knowledge of the workings of any motor vehicle and he is excited by the rugged design of the EarthCruiser and the possibilities that such a vehicle opens up to the adventurer in us all.

Chris has travelled throughout New Zealand, Australia, and Papua New Guinea in his role as mechanic, and while "on the road" for a major travel operator, Chris literally kept the wheels turning from the UK to Poland, Italy to Amsterdam, and many of the former Soviet States you will no longer find on a map.

Chris is excited about working with Earth Cruiser and the opportunity to be involved with a product that has been designed with first hand touring experience; a product thoroughly field tested and proven reliable whether exploring Outback Australia, or anywhere your heart desires. He is hoping to help others to explore the unknown, to get them there in comfort, and more importantly get them back again; ready, to start planning their next adventure.
